BELGIUM'S GUEST.

The Duke of Orleans at King Leopold's Palace.

John Dillon and Gladstone Discuss the Irish Situation.

The Ex-Premier Seeks Specific Information—A Bloody Battle With Saxons Between Two Americans in London—England's African Negotiations With Germany—Dumas' "Affaire Clemenceau" Forbidden by the Berlin Authorities—The Zone Libre—A Religious Riot in Mexico—Foreign News.

BRUSSELS, June 5.—The Duke of Orleans, who was released from the Clairvaux Prison in France, on Tuesday night, and conducted to the Swiss frontier, arrived in this city this morning. He was met at the railway station by one of the royal carriages and conveyed to the palace, where he took breakfast with King Leopold.

England.

LONDON, June 5.—While nine-tenths of the members of the House of Commons were witnessing the Derby yesterday, Mr. John Dillon and Mr. Gladstone were engaged in an exchange of views on the Irish situation at Hawarden Castle. It was Mr. Dillon's first visit to the ex-Premier, who drew his visitor into a long conversation touching the changes which had taken place in Ireland in recent years and the causes thereof. Mr. Dillon expressed the opinion that the Irish people who were now Radical had been mostly Tories until 1867, when the tide of Radicalism set in. Mr. Gladstone inquired of Mr. Dillon as to the general political opinions of the people of Ireland, outside of the question of home rule, and displayed a surprising degree of anxiety for specific information on that point in his manner of putting his questions.

FOURTH WITH RAZORS.

Two cattle drovers from America, Gallagher of New York and Wallis of Boston, became involved in a quarrel in an East End road last night and finally agreed to settle the dispute with the weapons with which they were provided. These weapons were razors, with which the engaged men cut and slashed one another in a frightful manner, while the excited spectators of the lowest standard of morality encouraged them with shouts of approval, as one or the other would inflict a particularly severe cut upon his adversary. The fight ended in a draw, both being weak from loss of blood. Their wounds are very serious and may prove fatal.

SPECIAL ORDERS WERE ISSUED YESTERDAY BY THE British War Office regarding the admission of the public to inspection of national defenses. Visitors who are not British subjects will not be allowed to visit any fortifications unless they are escorted by British officers in uniform. No information will be given to any person unless he is an English officer of full service.

FRANCE.

PARIS, June 5.—The Minister of the Interior recently ordered a complete census to be made of the carrier pigeons throughout France. It is shown by the returns that in case of war the nation can rely upon the services of half a million of these birds.

THE MILITARY'S BOMBS.

The chemical analysis of the bombs captured with the recently arrested nihilist conspirators has been completed, and the chemist's report shows them to have been simply intended for experimental purposes.

A DASTARDLY OUTRAGE.

La Grande Chartreuse, the famous monastery in the Department of Isere, fourteen miles from Grenoble, has been much damaged by the explosion of a quantity of dynamite. The dastardly outrage was the work of design and it is believed to have been done by persons living in the locality, who seek that means of venting their anger at the failure of an attempt made by them to extort blackmail from the monks in charge.

A STATESMAN DEAD.

The death is announced of Vicomte de Gontaut-Biron, the French ambassador in Madrid.

M. BOMBONNET.

M. Bombonnet, the famous panther killer, died to-day at Dijon.

GERMANY.

BERLIN, June 5.—Prof. Gluck, the well-known surgeon, recently removed the diseased knee joint of a male patient and inserted an ivory substitute, in conformity with the discovery made a few months ago that this substitution was possible. The patient has completely recovered, and no lameness is visible.

A FRENCH PLAY FORBIDDEN.

The "Affaire Clemenceau," Dumas' powerful but unwholesome romance, a dramatized version of which has been played for 90 nights in Dresden, has been forbidden by the Berlin authorities.

A DECISION REVERSED.

The Dusseldorf tribunal has reversed the decision of the Cologne court imposing a sentence of one month's imprisonment upon the editor of the Cologne Gazette for libelling the Emperor Frederick, and revoked the order condemning him. This judgment is rendered on the ground that the evidence of malicious libel was insufficient to warrant the penalty inflicted.

FARMERS' UNION.

The German farmers have formed a union to protect the small agriculturists against the oppressions of the larger ones.

THE IMPERIAL BAPTISM.

The baptism of the daughter of Prince Leopold yesterday was attended by the Emperor and Empress and the King of Saxony.

AFRICA.

LONDON, June 5.—Mr. Perry Anderson, who recently went to Berlin on a special mission for Lord Salisbury in connection with African matters, and returned unsuccessful, has again taken his departure for Berlin. It is understood that he will represent the African Association on State day, and endeavor to arrive at a definite agreement in regard to the respective claims of England and Germany in Africa, in which effort he will be assisted by Sir Wm. McKinnon, chairman of the Anti-Slavery Committee, and Sir Francis De Winton, President of the British East Africa Co.

BELGIUM.

BRUSSELS, June 5.—The Bulgarian Public Prosecutor, in the absence of proof, has formally withdrawn the charges implicating the Russian Government, in connection with the

## DRESSY SUMMER GOWNS.

THE FINE CLOTHES THAT ARE BEING BOUGHT FOR SUMMER WEAR.

An Unprecedented Demand for Cotton Goods—The New Style in Sleeves—Some Stunning Gowns Worn by Well-Known Women—Clinging Skirts Very Much Worn—A Neat Traveling Gown.

NEW YORK, May 28.—The day has come when many a woman has a morning dress as radiant as the dawn. What with the gowns in blue and red, dotted with tiny white flowers and trimmed with ribbons, the God of Day himself cannot outshine her.

The linen cambric in the natural gray color are much used for morning wear. These are striped in black, scarlet or blue. The stripes are broad and are worn by people who prefer by diminishing the effect of over stoutness.

For dressy gowns, striped laces, cambric and organdies are used, the thinner material being made up over silk, and many young women are using them for dinner gowns.

Forward and India silk gowns should have full sleeves and chemisettes of white guipure lace.

Hear the Roar of a Kraken.  
Piano sing. To hear it is to buy it. It stays in tune twice as long as any other piano and lasts a lifetime. Koerber Piano Co., 1102 Olive. Agents for the world-renowned Knabe pianos.

BURNED AT SEA.

The Crew of the Louis Bucki Rescued by a Passing Steamer.

NEW YORK, June 5.—The steamer Nacoches, Capt. Smith, from Savannah, which arrived to-day, reports that on the 3d inst., at 7 a. m., latitude 33.08, longitude 73.31, she sighted a vessel on fire and bore down on her.

The Nacoches fell in with the burning vessel, crew, thirteen men and one woman, in open boat and, upon seeing the vessel, the crew were forced to abandon the vessel in the only one of their boats that could be got away.

The Louis Bucki was a three-masted steam schooner of 417 tons register. She was built at Middle Haddam, Conn., in 1881, and sailed from New York.

NURSING MOTHERS should drink Phosphorus. Have fast food from Addison, 700 Olive street.

CLAYTON, MO.  
Mrs. Dr. Stevens and Miss Nannie Stevens, wife and daughter of the late Dr. Stephens, will make Clayton their home for the future.

Miss Nannie Stevens, visiting Mrs. O. H. Huckle, returned to Bellefontaine yesterday, after spending a few days in our pleasant little town.

It is then graduates less and less, till it is quite tight below the elbow. Another shape is straight, and is gathered into the wrist in "fifteen" style.

Skirts are now made with seven widths at the very least—four at the back, two at the sides and one in the front. Fifteen yards of single width goods are sufficient for a modern dress.

I saw a very pretty gown the other day at one of the big shops. It was made of silver gray India silk of very fine quality. The skirt was trimmed with three narrow ruffles, the material having a fine shimmering effect.

From one side came a band of point-de-bordeaux and from the other shoulder came two rows of olive green velvet ribbon pinned at the shoulder and waist with rosettes of the same. The full skirted waist was very popular for this gown, and very becoming to slender figures. Another pretty one of blue net and tulle was made of the same and the skirt and its trimmings were broad ruffled ribbons. The ribbon started at the waist and tied in the back where it was laid in soft folds. The front crossed in surplus style and then were twisted about the waist and tied in the back where it was laid in soft folds. The front crossed in surplus style and then were twisted about the waist and tied in the back where it was laid in soft folds.

THE WORSE FOR WEAR.  
Clinging skirts are very much worn, and if the material is heavy, are neither trimmed nor draped. Flowered silks, with the flowers in their natural color and size, are used in the plain and close-fitting skirts. They are trimmed with rose pinnings or tiny ruffles. Everything depends upon the fit of these skirts and there should not be a wrinkle in the front or side of the skirt.

One of our well-known dressmakers has been making a neat traveling gown for a young woman who will travel this summer. The material was grayish blue cloth striped with threads of dark blue. Over the left of the plain skirt there were three rows of narrow blue cloth, attached on like braid. The jacket bodice opened over a vest of plain blue cloth, and the skirt was made in England for one of the English princesses.

Of course everything depends upon the cut of the gown.

Helen Danvers Ward was out the other day in a wrap as remarkable as her own personality. It was made of black chamois lace and velvet. In fact, it was all lace except the undersleeves. The lace was full, front and back, and from the under arm-seams came velvet ribbons which confined the fullness as the waist where it tied in long loops and ends.

The wrap had long lace tabs which were finished by a cut steel fringe. The medical collar was of velvet and the front was fastened by two hands-in steel ornaments. The bottom of the wrap was trimmed with steel trimming and fringe.

With this wrap she wore a gown of cashmere in one of the new shades of green. The neck and sleeves were slightly gathered at the neck and wrists, fastening invisibly up the right side and trimmed with applique. The back was tight-fitting, the fullness of the skirt being gathered at the waist.

A New Street Costume.

skirt being pleated up with four box-pleats. The full skirt sleeves were ornamented with the applique. A pleated panel is let in down the right side, trimmed with handsome buttons.

I saw Mrs. George Gould yesterday in a very stunning coat made of light tan colored cloth. The sleeves and revers were of a darker shade of silk. It had loose fronts with a vest of striped goods. The bottom of the vest was finished with a silk sash the color of the cloth.

HEAR THE ROAR OF A KRACKER.  
Piano sing. To hear it is to buy it. It stays in tune twice as long as any other piano and lasts a lifetime. Koerber Piano Co., 1102 Olive. Agents for the world-renowned Knabe pianos.

BURNED AT SEA.  
The Crew of the Louis Bucki Rescued by a Passing Steamer.

NEW YORK, June 5.—The steamer Nacoches, Capt. Smith, from Savannah, which arrived to-day, reports that on the 3d inst., at 7 a. m., latitude 33.08, longitude 73.31, she sighted a vessel on fire and bore down on her.

The Nacoches fell in with the burning vessel, crew, thirteen men and one woman, in open boat and, upon seeing the vessel, the crew were forced to abandon the vessel in the only one of their boats that could be got away.

The Louis Bucki was a three-masted steam schooner of 417 tons register. She was built at Middle Haddam, Conn., in 1881, and sailed from New York.

NURSING MOTHERS should drink Phosphorus. Have fast food from Addison, 700 Olive street.

CLAYTON, MO.  
Mrs. Dr. Stevens and Miss Nannie Stevens, wife and daughter of the late Dr. Stephens, will make Clayton their home for the future.

Miss Nannie Stevens, visiting Mrs. O. H. Huckle, returned to Bellefontaine yesterday, after spending a few days in our pleasant little town.

It is then graduates less and less, till it is quite tight below the elbow. Another shape is straight, and is gathered into the wrist in "fifteen" style.

Skirts are now made with seven widths at the very least—four at the back, two at the sides and one in the front. Fifteen yards of single width goods are sufficient for a modern dress.

I saw a very pretty gown the other day at one of the big shops. It was made of silver gray India silk of very fine quality. The skirt was trimmed with three narrow ruffles, the material having a fine shimmering effect.

From one side came a band of point-de-bordeaux and from the other shoulder came two rows of olive green velvet ribbon pinned at the shoulder and waist with rosettes of the same. The full skirted waist was very popular for this gown, and very becoming to slender figures. Another pretty one of blue net and tulle was made of the same and the skirt and its trimmings were broad ruffled ribbons. The ribbon started at the waist and tied in the back where it was laid in soft folds. The front crossed in surplus style and then were twisted about the waist and tied in the back where it was laid in soft folds.

THE WORSE FOR WEAR.  
Clinging skirts are very much worn, and if the material is heavy, are neither trimmed nor draped. Flowered silks, with the flowers in their natural color and size, are used in the plain and close-fitting skirts. They are trimmed with rose pinnings or tiny ruffles. Everything depends upon the fit of these skirts and there should not be a wrinkle in the front or side of the skirt.

One of our well-known dressmakers has been making a neat traveling gown for a young woman who will travel this summer. The material was grayish blue cloth striped with threads of dark blue. Over the left of the plain skirt there were three rows of narrow blue cloth, attached on like braid. The jacket bodice opened over a vest of plain blue cloth, and the skirt was made in England for one of the English princesses.

Of course everything depends upon the cut of the gown.

Helen Danvers Ward was out the other day in a wrap as remarkable as her own personality. It was made of black chamois lace and velvet. In fact, it was all lace except the undersleeves. The lace was full, front and back, and from the under arm-seams came velvet ribbons which confined the fullness as the waist where it tied in long loops and ends.

## HELP WANTED—MALE.

COOKS.

WANTED—A young man order cook at restaurant, 1517 Franklin st.

WANTED—A first-class hotel cook to go to the country. Call bet. 1 and 2 o'clock. Room 15, Moser Hotel.

**GUARDED BY MILITIA.**

—Texas Topics.

PALESTINE, June 6.—The jail containing Charlie Saunders, an 18-year-old mulatto boy, is now being guarded by militia to prevent his being lynched. Yesterday he met Gertie Robertson, a little girl of 2 who had lost her way, and under pretense of showing her home attempted to assault her. Her screams and struggles frightened him off, and he was captured a short time

SA ANTONIO, June 3.—E. F. Taylor, a contemplative en route to the mountains with his family, while stopping at the Pettus house, was robbed of everything he possessed, and left in an absolutely destitute condition.

**In the Law's Clutches.**

PARAGOULD, Ark., June 5.—Charles Isaacs, an employee of Bertig Bros., was found in possession of \$5,000 of the firm's money along with a quantity of valuables. The firm gave him money enough to buy some tools, but the

**The Preventive of a Terrible Disease.**

No disorders, excepting the most deadly forms of lung disease, involve such a tremendous destruction of organic tissue as those which fasten upon the kidneys. Such maladies, when they become chronic—and none are so liable to assume that phase—completely wreck the system. To prevent this terrible disease, recourse should be had upon the first manifestation of trouble, to

has proved to be highly effective as a means of improving tone and regularity to the organs of urination, as well as to the liver, stomach and bowels. Another beneficial result of this medicine, naturally consequent upon its diuretic action, is the elimination from the blood of impurities which beget rheumatism, neuralgia, gout, dropsy, and other maladies. By increasing the activity of the kidneys, it augments the depurative efficiency of these organs, which are most important outlets for the escape of such impurities.

# AMMETH AUCTION SALE OF 57,000 FEET IN LOTS AND BLOCKS IN TWELVE PLACES, MONDAY AND TUESDAY, JUNE 9 AND 10,

On the Premises. TO PAY INDEBTEDNESS. Beginning at 10 O'clock A. M. Each Day.

## Sale Absolute and Without Limit or Reserve.

The Transportation Facilities surpass those of any other locality the same distance from the Court-house. The Fourth Street Cable Line passes the property on Grand avenue, and brings it within 20 minutes' ride from the Court-house and 15 minutes' ride of Twelfth and Chouteau avenue, two blocks from the Union Depot. The Market Street Line, which is now in course of completion, the rails being laid, passes the property its entire length on Tower Grove avenue. The Union Depot Electric Line, which starts on Fourth and Pine, passes Tower Grove Park and Grand avenue just south of the property.

Tower Grove Park, which adjoins it on the south, is each year being made more beautiful by the expenditure of \$25,000 annually by the city. Shaw's Botanical Garden lies on the west, Compton Hill Park and the beautiful Compton Hill Place adjoin the property on the east, while the finest drives surround it on all sides.

Unequaled Terms.—One-third cash, balance on or before one and two years at 6 per cent. Taxes for 1890 to be paid by the purchaser. The notes given for deferred payments can be paid off whenever desired, interest being computed from day of sale to day of payment only.

The Title Is Absolutely Perfect or No Sale and Earnest Money Refunded.

On Bidding Off Each Lot \$50 in Cash is Payable.

Restrictions.—In each deed will be restriction clauses, which establish a building line 10 feet back of the street, and prohibit the erection of any but a two-story brick house.

For further particulars apply to

## HAMMETT-ANDERSON-WADE, 213 NORTH EIGHTH STREET.

### SCHOOL BOARD PROPERTY AT AUCTION. JUNE 7, 10 A. M., AND CONTINUE UNTIL SOLD.

REAL ESTATE EXCHANGE 14 NORTH SEVENTH STREET.

EXTRAORDINARY TERMS.—One-fifth cash, balance on or before one, two, three and four years, with 6 per cent interest on deferred payments, to be secured by deed of trust. Purchasers may pay all cash, or as much more than one-fifth as they please. NOTE: Given for deferred payments will be held by the Board, and the purchaser may pay off one or more notes at any time, notes to bear interest from day of sale to date of payment only. These are the most liberal terms ever offered. NO TAXES.—All this property is entirely free from taxes for the years 1889 and 1890. EARNEST MONEY.—\$50 cash or certified check to be given as earnest money and part payment when bidding off each lot, unless when otherwise provided.

## HAMMETT-ANDERSON-WADE, 213 N. EIGHTH ST.

### WHY THE DUST FLIES.

TOO MUCH RED TAPE AT CITY HALL AND NOT ENOUGH CARS ON THE STREETS.

Twenty Carts in Twenty Districts, Which Require Them. Three to Four Sprinkling a Day.—Complaints Made on Tuesday Attended To by Friday.—What the Officials Say.—A Bad Situation.

The sprinkling of the streets in the twenty districts late to the St. Louis Improved Street Sprinkling Co. is not being done. The President of the Board of Public Improvements says so. The Superintendent of Sprinkling says so. The inspectors all say so. The company declines to make any statement and the public suffers because the city officials postpone and delay the action they should take in the matter.

The city has full authority to cancel the contracts made with the St. Louis Co. and let them, filling the interval with hired carts. There is nothing in the way of doing this, and it has, in fact, been done, but so far the good results have not been perceptible, as there now but twenty carts for the twenty districts still remaining with the St. Louis Co. Complaints are still pouring in, and reports from both the inspectors and the police and private citizens are plentiful enough to warrant a move on the part of the city. There is a very marked absence of co-operation between the departments in charge of the work, however, and a lack of system which does much toward delaying the application of remedies.

There seems to be no well regulated channel through which the protests, complaints and reports can be submitted to the Board of Public Improvements, which has the authority to cancel the contracts. This is a very serious drawback as evils of today do not receive the proportionate until two or three days later. A citizen's complaint arriving in this morning's mail goes to an inspector for investigation, and his report is made to-morrow morning. And then goes to the Street Commissioner, who on Friday presents it to the board at its regular meeting. So that in any event if the contractor wishes to skip any particular street or section from today on to Friday he can do so unless the inspector, by extraordinary means, gets the cart to give the street a wetting in some of the districts the inspectors can

keep the carts going and get the work done. In those of Joseph it is impossible there are not enough carts and it is physically impossible for his carts to cover the specified territory the required number of times. Granite, wood and asphaltum must be wet down three times a day and macadam three times a day. Each wagon might, with steady work, go out on the street once a day, but one district once a day. So that some of the streets which are entitled to four sprinklings a day can at best get only one. The city has no reason why he should not be held to his contracts or else the contracts taken from him and given to a competent contractor.

Another Free Excursion. The "want" advertisers of the ST. LOUIS POST-DISPATCH will have another chance for a delightful sail on the Mississippi. Every "want" advertiser in the next SUNDAY POST-DISPATCH will get a free ticket for the excursion of June 25.

A BOLD ATTEMPT.

To Rob a Cable Car Conductor on Morgan Street Last Night. An unknown negro made a bold attempt at robbery on Morgan street last night. About 11:45 o'clock as a train on the Franklin avenue line was moving east on Morgan street the conductor noticed a negro standing on the platform of the passenger car. As the train was crossing High street the conductor stepped back for the negro's fare. He had his pocket-book in his hand at the time. The negro grabbed at the book, but missed it, and tumbled off on the street. The train was stopped as soon as possible and a search was made for the negro, who succeeded, however, in making good his escape.

Missouri Retail Jewelers' Association. The first annual meeting of the Missouri Retail Jewelers' Association was held last evening at 628 Locust street. The election of officers for the ensuing year resulted as follows: President, Herman J. Oberhelmer; Vice-President, J. R. Ryan; Secretary, J. F. Schmitt; Treasurer, F. H. Niehaus; Board of Directors, F. W. Bierbaum of Meistert & Bierbaum, Wm. Heackler, John Schmidt, Henry March and Chas. Osterhorn.

Communications were read from the officers of the Ohio Retail Jewelers' Association and the Jewelers' National Association. Headquarters at Philadelphia, expressing regret at their inability to be present, and wishing the "young association" a rapid and prosperous growth.

THE 'FRISCO PURCHASE. EFFECTS OF THE CONSOLIDATION ON THE BUSINESS INTERESTS OF ST. LOUIS.

President Allen Manuel Speaks of the Plans for the Future.—A Fine Transcontinental Train Service to Be inaugurated.—The Burlington and the Atchafalaya.

His morning the officials of the Atchafalaya assembled at the Frisco offices and the examination into its affairs commenced yesterday. Allen Manuel, President of the Atchafalaya, of the Atchafalaya and Pacific, was present, together with George C. Magoun, Chairman of the Board of Directors of the Atchafalaya, Traffic Manager J. A. Hanley and General Solicitor Geo. H. Peck. They were engaged all morning with General Manager H. L. Morrill and other officers of the Frisco in going over the books and obtaining information as to the exact condition of the road.

THE ATCHAFALAYA OFFICERS. President Manuel, in reply to a question from a representative of the Post-Dispatch, said: "There is not the slightest probability of any immediate change of any importance being made in the officers of either the Frisco or the Atchafalaya on account of the purchase of the former road by the latter. Of course they will be operated in conjunction, but they will be managed separately, as has heretofore been the case. There will be some slight changes; as for instance, there will no longer be an Atchafalaya office kept in this city. The business heretofore done there being transferred to the Frisco. The same thing will be done at one or two way stations, but as a general thing the management of the lines will be kept distinct, although of course they belong to the same people. The Frisco officers are familiar with their own road, and can handle it better than those who are strangers to it. "Will the office of the Atchafalaya be moved to this city?" "No such step is in contemplation at present."

### AN ENGLISH SCHEME.

Startling Facts About the Lower California Filibustering Expedition.

SAN FRANCISCO, Cal., June 5.—The Chronicle's special from San Diego says: The investigation being made into the proposed filibustering expedition against Lower California continues to reveal startling facts and a new phase is now put upon the affair. From the evidence furnished by the agents of the Mexican Government, it appears that the expedition would be in the hands of a plan to annex the peninsula to the British Empire by the East India Co. when Great Britain acquired her possessions in Asia. It was designed to colonize Lower California, and secure concessions from the Mexican Government. What the British would do with the territory would then be jeopardized and the intervention of the United States would be invoked. In proof of this statement of the agents of the company, substantiated by documentary evidence, has been secured. Maj. Scott, manager of the company, assured the filibusters that two English men-of-war would be in the vicinity of Ensenada, skirting the coast when the new Republic was to be declared. As soon as the declaration of independence of the new Government had been proclaimed these war vessels were to enter the harbor and recognize the new nation. Scott also states that the nucleus of the army was already in Lower California stored in a warehouse of the English Co. at Ensenada. Three hundred cases of rifles were shipped to Ensenada by the English Co. some time ago. Maj. Scott supposed that after the Republic had been established the United States Government would join with the Mexican Government in suppressing the invaders, and protect the interests of her subjects and would establish a protectorate over the peninsula. This, up to present developments, is as far as Maj. Scott is implicated in the affair. This may be proven by the correspondence over his signature. It goes to show that Maj. Scott was only using the American conspirators, Smith, Moran, Worthington and others, to give the plot an appearance of being an American movement.

Don't Miss It. A great and glorious success was the first Sunday "Want" advertisement excursion. Another one will take place Wednesday, June 10. Every "Want" advertiser in the next SUNDAY POST-DISPATCH gets a ticket free.

South American Railway Scheme. SAN ANTONIO, Tex., June 4.—It is stated here that Chicago, Burlington & Quincy Railroad damaged the building to the amount of \$300 and occasioned an alarm from box 277, sparks from an adjoining chimney caused the blaze.

Children Cry for Pitcher's Castoria. When Baby was sick, we gave her Castoria. When she was a Child, she cried for Castoria. When she became Miss, she clung to Castoria. When she had Children, she gave them Castoria.
